Southern California Horticultural Institute
Southern California Nurserymen

OUR BUSINESS:

We are propagators and growers of evergreens, specializing in the production of conifers.

CONDITION OF SALE:

Every effort is exercised to give the best stocks. Only standard grades are used. Our stock in pots and tin containers can be shipped the year around, while the bare rooted and once transplanted cuttings can be shipped only in season. 25% deposit on orders after March 15.

PACKING:

No packing charges will be made for bare rooted cuttings and bare rooted stock when the packing is left to our judgment. Stock in pots and containers will be packed at cost.

TERMS:

We offer the usual terms—net 30 days from date of shipment—to those of known responsibility but must have satisfactory business references from others, or remittance must accompany order. Those desiring stock shipped by express, C.O.D., will please remit 1/4th the amount of their purchase when ordering. Other terms by special arrangement.

CLAIMS:

Claims, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.

NON-WARRANTY:

We give no warranty expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth, planting of stock or any other matter on any stock we sell. We send out good stock carefully grown and packed but cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that may prove otherwise, or refund the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

SHIPPING DIRECTIONS:

Give explicit directions stating whether stock is to be shipped by rail, auto freight, parcel post, or express. In the absence of advice we use our best judgment.

THIS LIST CANCELS ALL PREVIOUS ISSUES.

CHAMAECYPARIS: Lawsoniana Lutea.

A dense golden cypress in a broad symmetrical, pyramid shape, branching close to the ground. A trim, handsome ornamental, giving the impression of an individual well dressed and groomed and with a minimum amount of attention. Golden color throughout the year. Height 12-15 feet.

	Each	100	1000
Rooted cuttings	\$ 6.00		

JUNIPERUS CHINENSIS ARMSTRONGI:

Produces a dense mass of soft gray-green foliage, 2 to 3 feet high and broadly spreading. This variety originated in the Armstrong Nursery as a sport on Juniperus chinensis pfitzeriana.

	Each	100	1000
Rooted cuttings	\$ 6.00		
Once transplanted 6-9 in...	10.00		

JUNIPERUS CHINENSIS FEMINA (sylvestri):

A loosely branched tree, tips slightly nodding, foliage bright green, completely covering the branches, in fact it is so dense that the branches appear to be moss laden. Contrast between adult and juvenile foliage is very delightful. A wonderful tree.

	Each	100	1000
Rooted cuttings	\$ 6.00		
Once transplanted 10-12 in.	7.50		

JUNIPERUS CHINENSIS PFITZERIANA:

The best known variety in landscape gardening. It is hardy and rapid, vigorous grower and thrives under adverse conditions of soil and climate.

	Each	100	1000
Rooted cuttings 5-8 in....	\$ 5.00	\$45.00	
Once transplanted 6-9 in...	8.00	65.00	
Once transplanted 9-12 in.	9.00	75.00	
Twice transplanted 9-12 in.	12.00	100.00	
Twice transplanted 12-15 in	15.00	125.00	
1 gal. containers 15-18 in. \$.25			

JUNIPERUS EXCELSA STRICTA

	Each	100	1000
Once transplanted 5-9 in.	7.50	50.00	

JUNIPERUS CHINENSIS COLUMNARIS:

(Blue Column Juniper)

One of the best known varieties introduced from China by the U.S. Dept. of Agriculture. This variety must be planted in an exposed location with plenty of moisture to obtain a good specimen plant, without trim. Especially used in the landscape planting of lawns as specimen plant. It is a rapid grower with sharp prickly leaves, doing well in hot dry locations, and it is also immune to severe cold. The true form has an attractive glaucous blue color.

	Each	100	1000
Once transplanted 8-15 in.		\$12.50	100.00

JUNIPERUS CHINENSIS SQUAMATA

A good, hardy, thrifty, rapid growing, prostrate Juniper with fine color both winter and summer. Foliage is on the bluish order, having distinct blue green color.

	Each	100	1000
Rooted cuttings		\$ 6.00
Once transplanted 5-9 in.		8.00
1 gal. container 10 to 15 in.	.25	

JUNIPERUS VIRGINIANA TRIPARTITA:

(Fountain Juniper)

A low sturdy form of the real cedar with rigid spreading branches as broad as high to maximum 5-6 feet.

	Each	100	1000
2 1/4 inch pots 6-9 in.....		\$10.00
Once transplanted 9-12 in.		7.50

JUNIPER SABINA TAMARISCIFOLIA:

A dense compact mound of bluish green foliage, spreading 7-8 feet. Not over 18 inches in height. Foliage never changes. Excellent for foreplanting or corner where a low spreading planting is wanted.

	Each	100	1000
Rooted cuttings 3-4 in.....		\$ 6.00	50.00
Once transplanted 6-9 in.		8.00	65.00
Twice transplanted			
9-12 inches, Bushy.....		12.50	100.00

JUNIPERUS CHINENSIS TORULOSA:

(Hollywood Juniper)

It is an upright type, branching and with very close, tight foliage. At all seasons of the year the foliage is a very dark green—much darker and more beautiful than any other juniper. It makes a fine tub or pot plant for patios. We cannot recommend this plant too highly for any purpose where a coniferous plant is to be used.

	Each	100	1000
Once transplanted 9-12 in.		\$12.00	-----

TAXUS BACCATA HIBERNICA:

(Irish Yew)

Columnar and formal, compact. Foliage intensely dark green, not changing in the least with the season. Slow growing and very desirable.

	Each	100	1000
1 gal. container 12-16 in.	\$.65	\$50.00	-----
In 3 gal container 3-6 ft.	.75 per ft.		-----
3 inch pots 10-12 in.	.35		-----

THUYA ORIENTALIS AUREA NANA:

(Berkman's Dwarf Evergold Arborvitae)

Doubtless the most popular dwarf, golden arborvitae known. Almost globe shaped, very compact, foliage vertical and bright gold. Very formal appearance.

	Each	100	1000
2½ inch pots 4-6 in.		\$10.00	\$90.00
Once transplanted 4-7 in.		8.50	75.00
Twice transplanted 9-12 in.		15.00	120.00
1 gal. container	.25		-----

THUYA ORIENTALIS BAKERS:

(Bakers Pyramidal Arborvitae)

One of the dark green arborvitae, fast growing pyramid shape.

	Each	100	1000
Rooted cuttings		\$ 5.00	\$35.00

THUYA ORIENTALIS BONITA:

Rich dark green foliage which does not brown in the winter months. Grows to medium height in a broad, cone-shaped form.

	Each	100	1000
Rooted cuttings		\$ 5.00	-----
Once transplanted 5-8 in.		7.50	-----

THUYA ORIENTALIS BEVERLEYENSIS:

(Golden Column Arborvitae)

A stately, rapid growing, oriental arborvitae. Foliage good color all year. A fine pyramidal specimen tree.

	Each	100	1000
Rooted cuttings		\$ 6.00	\$50.00
Once transplanted 7-10 in.		12.00	-----

THUYA ORIENTALIS ELEGANTISSIMA:

A broad pyramid of formal shape and a golden color.
Very hardy.

	Each	100	1000
Once transplanted 4-7 in.		\$ 8.00
Rooted cuttings		6.50

THUYA ORIENTALIS COMPACTA:

The finest of all arborvitae in form, color and general appearance. Compact, dense foliage of charming dark green color. Neat and conical in form. A distinctive tree that is certain to be used extensively as it becomes known and appreciated.

	Each	100	1000
Once transplanted 4-7 in.		8.00
Rooted cuttings		6.50

THUYA ORIENTALIS PYRAMIDALIS:

Dense compact growth, narrow and pyramidal in form, deep rich green in color; reaches a height of from 15-20 feet.

	Each	100	1000
Once transplanted 7-10 in.		8.00

THUYA ORIENTALIS STEWARTII:

A golden column of finer texture than beverleyensis. It holds its distinct golden color better than any other golden arborvitae.

	Each	100	1000
Rooted cuttings		\$ 6.00	\$50.00

STERLITZIE REGINAE

"BIRD OF PARADISE"

A rare plant, much prized for its tropical appearance and its exotic flowers. Blooms almost continually. Plants bloom from 4 to 6 years from seed and because of the slow growth will never become common. Plants 2 years 1 gal. containers

8-10 inches	100-50c Each
		500-40c Each
		1000-35c Each
Seeds	100 - \$5.00
Seeds	500 - 20.00
Seeds	1000 - 35.00
